

LAKEVILLE LAKE PROPERTY OWNERS ASSOCIATION
REGULAR MEETING – December 13, 2016
(Meeting Re-scheduled from October 25, 2016)

President Wayne Hodges called the meeting to order at 7:30 p.m. Roll was called and Board member attendance was as follows:

Officers

Wayne Hodges, President (2016) - Present
Michael Cattane, Vice President (2016) – Excused
Jeff Banaszynski, Secretary (2015) - Present
Paul Hosner, Treasurer - (2016) Excused

Directors

Chuck Sargent (2016) - Present
Tom Maliszewski (2015) – Present
Paul Woodring (2015) - Present
Marc Van Hoogstraat (2015) - Present
Paul Carthew - (2015) Present - Present

Approval of Agenda

- Tom Maliszewski asked to add a discussion on the DNR to the agenda. Wayne Hodges noted that a discussion on the Cooperative Lakes Monitoring Program (CMLP) would be included in the Savin Lakes agenda topic. Paul Woodring motioned to approve the agenda. Marc VanHoogstraat seconded the motion and the agenda was approved with additions.

Approval of Minutes

- Minutes for August 23, 2016 were presented for approval. Chuck Sargent moved to approve the minutes as presented and Marc Van Hoogstraat seconded the motion. The August 23, 2016 minutes were approved.

Treasurers Report

- There was no treasurers report with Paul Hosner's absence. Gene Crombez stated that the transfer of signature on the bank accounts had not happened and that he was still receiving bills. He indicated that the subscription for the Riparian needed to be renewed along with our non-profit registration. Additionally there would be fees if there was no account activity.

Lake Management Program 2016

- Wayne Hodges reviewed the season end charts from Savin Lake Services identifying service dates and related application activities for invasive species. Jeff Banaszynski asked if Progressive AE had used 24D while they were servicing the lake and was told they had. Savin's report included readings for chlorophyll, phosphorous and clarity. The phosphorous level was the highest in the North bay. Savin indicated that dissolved oxygen was important for aquatic life and helps keep phosphorous from bonding with minerals. Wayne Hodges showed charts from our Cooperative Lakes Monitoring Program data. Over all Lakeville Lake is rated as good but shows higher levels of phosphorous and chlorophyll in the North bay reflecting input from Upper Lakeville Lake. Marc Van Hoogstraat asked if there was a way to filter the input from Upper Lakeville Lake.

Tom Maliszewski reported that his contact with the DNR indicated that Lakeville Lake was in good shape. Tom has been taking e-coli samples for years and all readings are good. The DNR representative indicated possible funding programs for water sampling and boat wash facilities. Tom suggested sending the DNR Savin's report and inviting them to a future meeting to discuss future actions to help the lake. Marc Van Hoogstraat asked if our mechanical harvesting program was helping. Wayne Hodges asked if anyone was willing to collect dissolved oxygen samples for next season. Jeff Banaszynski offered to check on the cost of adding dissolved oxygen to the CLMP program.

Lake Management Plan from Savin Lake Services

- Wayne Hodges reported that Savin feels we are doing everything that is currently available to maintain the lake and suggested a more aggressive early identification program for invasive species. Jeff Banaszynski offered to contact the Oakland Press relative to an article they published on a new invasive, Euro Frog Bit.

Suction Harvesting

- Wayne Hodges reported that he and Virgil Boots had reviewed Suction Harvesting for Eurasian Milfoil a few years ago and felt it was very labor intensive with the operator having to pull individual weeds and feed them to the suction hose. Marc Van Hoogstraat indicated that the operator offered to attend a meeting to discuss the

process and explore options for Lakeville Lake. Tom Maliszewski asked if they charged by the acre and would be willing to demonstrate in a test area. Wayne suggested inviting them to a test demonstration coordinated with other activities they might have in the area. Jeff Banaszynski asked if specific funding approval would be needed from the Lake Improvement Board in addition to the contracted services with Savin Lake Services.

New Business

- The no wake buoys have been removed for the season and necessary repairs will be made prior to placement next spring.
- A LRA Meeting is scheduled for Thursday December 15, 2016.
- Wayne Hodges indicated that boat washing helps reduce transfer of invasive species and referred to an article in the Riparian on Crooked Lake's boat wash station. Wayne suggested it might be similar to what would be feasible for Lakeville Lake. Paul Carthew asked if there were any boat wash stations in place on state property.
- James Elsarelli offered to construct guidelines for bouy placement and removal.
- John Barczyk indicated that he has talked to Bruce Pearson about concerns over the failing sewers in Leonard and their impact on Upper Lakeville Lake and ultimately Lakeville Lake.
- The Riparian magazine is preparing to feature Lakeville Lake in their next issue.

Jeff Banaszynski moved to adjourn the meeting. Chuck Sargent seconded the motion. The meeting was adjourned at 9:00 p.m.

The next meeting is scheduled for 7:30 p.m. February 28, 2017 at the Addison Township Complex.
